Further integrations on request

---

[1] Newer versions of Innovator may be available and compatible with the integration. Updated release notes can be found in the download portal. For Aras Innovator 11, this version is generally supported, but issues are fixed only if they occur in the verified versions.

[2] The version is generally supported, but issues are fixed only if they occur in the verified versions.

[3] SA (Service Availability): This integration is only available as a project solution.

[4] LA (Limited Availability): This integration is technically mature but has not been thoroughly tested. Issues can be fixed easily.
