

Platform matrix for Arena PLM integrations

The specified version support listed here only applies to the latest integration versions and may not be valid for older versions. If you have any requests for a version not listed, please contact support@xplm.com.

Definition of application version support

- Official support: The version is supported by the latest integration. Issues are fixed immediately.
- Limited support: The version is generally supported by the latest integration, but has not been explicitly tested. Issues are fixed only if they occur in the official versions.

Windows support

Unless otherwise specified, all integrations support Microsoft Windows 10/11 (x64).
