

# Platform matrix for SAP PLM integrations

## SAP PLM

| Name    | Verified version support |
|---------|--------------------------|
| SAP PLM | ECC 6.0/SAP GUI 7.7+     |

## MCAD integrations

| Name                         | Verified version support | Limited support <sup>1</sup> | Microsoft Windows (x64) 10/11 <sup>2</sup> |
|------------------------------|--------------------------|------------------------------|--------------------------------------------|
| Dassault Systèmes SOLIDWORKS | 2021-23                  | 2017-20                      | X                                          |

## Other integrations

| Name                                        | Verified version support | Microsoft Windows (x64) 10/11 <sup>2</sup> | Microsoft Windows (x64) Server 2012/16 | Oracle Linux Server 6.7 |
|---------------------------------------------|--------------------------|--------------------------------------------|----------------------------------------|-------------------------|
| Dassault Systèmes SOLIDWORKS Enterprise PDM | 2017-23                  | X                                          |                                        |                         |
| Oracle Agile EDM                            | 6.2.0                    |                                            | X <sup>3</sup>                         |                         |
|                                             | 6.2.1                    | X                                          | X                                      | X                       |

Further integrations on request

<sup>1</sup> The version is generally supported, but issues are fixed only if they occur in the verified versions.

<sup>2</sup> The integration runs on Windows 11, but applications to be integrated may not be compatible. Check the application on the manufacturer's website for compatibility with Windows 11.

<sup>3</sup> The integration is only supported when Agile EDM is under Server 2012.

### ABOUT XPLM

XPLM is a globally operating PLM solution provider specializing in integrating applications, processes, data and information for optimum, cross-domain collaboration between engineers. With its unique technology portfolio, XPLM integrates between leading PLM, MCAD, ECAD, SysML, ERP, Office, Requirements Management and ALM / Software tools.
